21/01/2021

Projects

Bongobitan Multi-vendor project,
Django, DRF, Nuxt, Sqlite, RestAPI ⃡
Here sellers can sell their projects to customers. Admin can get control on **seller panel(phone_number: 01521475690 pass: 12345678)** ⃡ . I mainly focus on sellers' projects and middleware.

Single Vendor Ecommerce,
Django, DRF, Sqlite, RestAPI ⃡
I created only API's with a payment system(SSLCommerz). I used Authorization, Authentication, Signals, Token and Session-based auth, class-based view, and more.

Titanic Analysis,
Python, pandas, numpy, matplotlib
This is my first project though i am learning but I tried to completed this basic project on data visualization in python. Project ⃡
